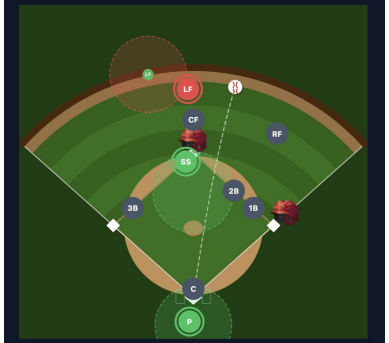
RANDOM MODE ★ 2

1/10 OUTS SCORE 2

Fly Ball to Center Field
Deep fly ball to right-center — drops for a hit, runners on 1B and 2B



2 of 3 correct

P ✓ Back up home plate
Sprint behind home plate in line with the throw — stops any overthrow from letting the runner advance.

LF ✕ Back up CF from the left
Rotate behind CF in case the ball gets past — prevents it from rolling to the wall.
Backup: get behind the target on the throw line extension

SS ✓ Relay between CF and home
Any outfield ball scores the runner from 2B — SS gets halfway between the outfielder and home to relay or cut the throw.

Baserunning Quiz 1/12 ★ 1/1

Force Play

You are on 2B. There is NO runner on 1B. There is 1 out. The batter hits a ground ball to the shortstop.

What do you do?

✓ Hold at 2B — do NOT run

Run to 3B immediately

Tag up and see if it's caught

WHY?
There is no force on you because 1B is empty. If you run to 3B, the SS can throw to 3B and tag you out. HOLD at 2B unless you are sure you can make it safely. This is one of the most common baserunning mistakes at this age.
